WHAT'S A LADYFEST? LADYFESTS ARE WORLDWIDE

Ladyfest Flint is one of many ladyfests DIY'd across the world. The first ladyfest took place in Olympia, Washington in 2000, and since then,

Ladyfests have spread as far as Berlin and Melbourne, Barcelona, Shanghai, DC and Chicago.

They're basically DIY'd art and music fests that celebrate women's empowerment and impact on our world. They also aim to be gender inclusive and provide a safe space for identity exploration.

Originally they came out of punk rock, but each is shaped by what's in their city, be it any music, art, spoken word, workshops, speakers and vending.
